- Join the Fun! MasterKey takes the mystery out of music theory!
- Quickly transpose music written for piano or guitar and play along on your saxophone, clarinet, or any other transposing instrument.
- Determine the notes of any chord and improvise over any chord progression.
- MasterKey displays all the modes and keys you need to bring something new and different to your performance.
- Made of rugged ABS plastic. 15 page instruction manual included.

## Product description

MasterKey has a unique, award winning, straight-line design that's intuitive and easy to understand. Unlike circular devices, there's no need to spin MasterKey to read the clear and simple graphics. Besides transposing between any two keys, MasterKey displays eight different scales, relative minor keys, and all seven modes. MasterKey is being used a teaching tool for beginners and as an accurate reference tool for advanced musicians all over the world. Each MasterKey is made from heavy-duty ABS plastic for years of service. It also comes with a 15-page manual to help you get the most from this indispensable tool.

Item Weight	6.1 ounces
Shipping Weight	6.1 ounces ( <a href="#">View shipping rates and policies</a> )
Manufacturer	Kembo-Cuisenaire
ASIN	B074MRBCWJ

# MasterKey transposes between keys and displays chord tones in a single operation.

www.mymasterkey.com

Slide the Transposing Slider from the old key, C, to the new key D#/Eb. C becomes D#/Eb, C#/Db becomes E, D becomes F, and so on.

Slide the I/tonic under the new key (D#/Eb). Use the dots to identify the notes in the major, minor, dominant, diminished, and augmented chords.

# MasterKey's flip side can transpose, too!

## It also displays 7 modes

- Ionian mode
- Dorian mode
- Phrygian mode
- Lydian mode
- Mixolydian mode

- Aeolian mode
  - Locrian mode
- And 3 additional scales  
Major Pentatonic  
Minor Pentatonic  
and The Blues Scale.

MasterKey can display five different scales for the new note at one time.

The screenshot shows the MasterKey software interface. At the top, there is a row of note buttons labeled B, C, C# Db, D, D# Eb, E, F, F# Gb, G, G# Ab, A, A# Bb, B, and C. The 'C' button is highlighted with a black box. To the right of this row is a dropdown menu labeled 'OLD KEY' with 'RM' and a downward arrow. Below the note buttons is a row of note buttons labeled D, D# Eb, E, F, F# Gb, G, G# Ab, A, A# Bb, B, C, C# Db, D, D# Eb, E, F, F# Gb. Below this is a scale chart with columns for each note. The 'I TONIC' column is highlighted with a black box. The scale chart shows notes for Major, Natural Minor, Harmonic Minor, and Melodic Minor scales, along with ascending and descending directions. Roman numerals (vii, I, ii, iii, IV, V, vi, vii) are shown at the bottom of the chart.

Slide the I/tonic under the new key (D#/Eb). The diamonds display the notes in the major scale as well as three minor scales including both ascending and descending melodic minor scales.
